

생태시대의 도래와 엔지니어의 역할 (Entering the ecological age: the engineer's role)

The Institution of Civil Engineers Brunel Lecture Series

발표자: Peter Head OBE

ICE Fellow (영국토목학회) , Director of Arup

2009년 5월 21일 목요일

16:00 – 18:00

Thursday May 21 2009, 16:00 – 18:00

**연세대학교 삼성학술정보관
6층 국제회의실**

International Meeting Room, Samsung Library
Yonsei University, Seoul

The lecture outlines the challenges facing us, as society has to really address the problems caused by climate change and a burgeoning world population. Peter Head will review the major changes required in the development of infrastructure, policy and the role of the engineer, to enable climate change issues to be tackled in urban and rural areas, in both developing and developed countries.

**BK21 미래사회기반시설 산학연공동사업단
영국토목학회 한국지회 공동 주최**

Presented by BK21 center for future infrastructure systems, and ICE Korea Branch
